

# NOVEMBER

## SWIMMER OF THE MONTH

---

### TODDLER SWIMMING: BEN

Ben has always loved his swimming lessons, but a few months back he went through a phase of not wanting water on his face. He wouldn't go under anymore, and wasn't even happy being splashed. We kept encouraging him and kept his lessons fun, and he has now progressed to going under throughout his lessons, going through the hoop and even fetching toys off the floor. Well done Ben you have made incredible progress and we are very proud of you!!

### LEARN TO SWIM: AARYAN

Our Swimmer of the Month this month is a little guy who took so long to understand that water can be fun. His fear held him back from understanding that letting go would bring all the water adventures he could imagine. Until recently, when all the skills he had been taught, came together to create a little swimmer! Aaryan Naidoo, we are beyond proud of you for persevering through your fear and growing to love swimming! Well done!

### INTERMEDIATE SQUAD: CARTER

This young man is full of potential and determined to reach his goals. He is currently competing in fun gala's with the goal of progressing to registered competitive swimming and we couldn't be more proud! Carter is a great training companion, always pushing his team mates to achieve their best as well as finding his niche swimming Butterfly. Overcoming his recent diagnosis of asthma, Carter has not let anything get in his way of working hard. Well done!
